Enthusiastic Software Developer eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Specializing in Problem Solving, Java & Web Development. Motivated to learn, grow and excel.

Key Skills

- Problem Solving
- Java, J2EE
- Python
- JavaScript, Oracle JET
- SQL, PL/SQL
- Linux

Tools

- IntelliJ, Eclipse, Visual Studio Code
- PyCharm, VIM
- BMC Control-M
- SAP BI
- Informatica

Professional Experience

September 2021 - Present

Application Engineer

Oracle, Bengaluru, Karnataka

- Developed **Multi-Lingual support** for Knowledge skill in Oracle Digital Assistant.
- Implemented Similar Article for Service Request using **Oracle JET (JavaScript Extension Toolkit)**.
- Revised, modularized and updated old code bases to modern development standards, reducing **operating costs** and **improving functionality**.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.

June 2019 - September 2021

Software Developer

Wipro, Bengaluru, Karnataka

- Developed a program using **PL/SQL & Python** that automatically creates and publishes a report to **SharePoint** at a defined interval, scheduled with BMC **Control-M**. Reduced Manual Efforts.
- Developed a program that reads a huge data set from binary excel and loads into oracle tables using **Python**. A **PL/SQL Procedure** is created to process the data.
- Completed Multiple Application Enhancements (**Java, PL/SQL, Informatica Workflows**).
- Critical Bug Fixes in multiple applications and Informatica **workflow**.
- **Improved Performance** of SQL Queries and PL/SQL Packages, Procedures, and Functions.

Education

B. Tech in Information Technology

Haldia Institute of Technology

Haldia, West Bengal

- A system based on **Java Servlet & JSP**, which information is accurate and no worry of data misplacement. All the information will be automatically stored in the database (**MySQL**) which is easy to search, modify or delete. Information-related room allocation can be added by admin and can be sent to the respective faculty or student from anywhere or at any time which saves a lot of time and effort. Hosted on Local Machine with the help of **Tomcat Server**.

Accomplishments

- Earned performance-based Highest Rating twice in Yearly Appraisals.
- Winner of the Manager's Choice Award twice for resolving the greatest number of critical incidents.
